3. This appears to be a reasonable request . . . [REDACTED] has always been a problem post. We use to assign people there for one year and one year at [REDACTED] or another FE post. Gather this is no longer feasible. The slot is charged to [REDACTED] both on the PCR and in MODE . . . hence there's no way to get the family to [REDACTED]

I would recommend, however, the approval have a caveat that it applies only while [REDACTED] remains an "unaccompanied post".
